

Do you work with a Francophone child, youth or family in the Simcoe or Muskoka region?

Are you having difficulty finding Francophone services? Is the person or family in a complex, high-risk situation? If you answered yes to these questions, the community is here to help!

We believe Francophone children, youth and families grow and thrive in a safe and healthy community through the collaboration of organizations and the implementation of integrated French-language services.

**Safe kids.
Healthy families.
Strong communities.**

**Do you offer services for children and families in French, or would you like to refer someone to the table?

FRANCOPHONE SITUATION TABLE OF SIMCOE MUSKOKA

Do you require services to help a Francophone family or child/youth 0-24 years old in a situation with complex needs?

What is the Francophone Situation Table of Simcoe Muskoka?

It is a strategic multi-sectoral collaboration of child, youth, and family services for Francophones:

- that is guided by common principles and processes
- whose objective is to offer active solutions
- that provides support for Francophone families and individuals in the region

"The doors to the future are open to those who know how to push them."

Coluche

How does the Situation Table help?

1. Referrals are made to the Situation Table with the members who represent Francophone services in that region.
2. Table members participate in collaborative problem solving and implement a risk-based response.
3. An intervention is done by the worker with the child, youth or family and with the support of the services offered at the Table.
4. The worker returns to the Table for a final review or for another request for support.

What is a situation with complex needs?

It is a situation with several challenges from the list below experienced simultaneously with negative effects for a child, youth, or family.

- Poor physical health, alcohol misuse, drug addiction, self-harm, sexual violence, drugs
- Mental illness, antisocial behavior, cognitive impairment
- Reduced emotional health, loss, emotional abuse, suicide
- Adverse social determinants of food insecurity, unstable shelter, harmful home environment
- Poverty, unemployment
- Criminal victimization, youth justice issues, harassment
- School issues, bullying, negative peer influences, absenteeism, gang affiliation
- Neglect, lack of supervision, parenting concerns

Table membership includes:

- mental health services
- victim services
- community services
- police
- probation
- school boards
- child well-being agencies
- developmental services
- unemployment and housing services
- social services
